Włodzimierz Ogryczak

Publications

Books (monographs)

[1] Digital Preservation: Putting It to Work. *Studies in Computational Intelligence*, **700**, Springer 2017. (edited with T.Traczyk, P.Pałka, T.Śliwiński).

[2] *Linear and Mixed Integer Programming for Portfolio Optimization.* Springer, Berlin, 2015. (with R.Mansini and M.G.Speranza).

[3] *Linear and Discrete Optimization with Multiple Criteria: Preference Models and Applications to Decision Support* (in Polish). Warsaw University Press, Warsaw, 1997.

[4] *Linear and Integer Programming* (in Polish). Scientific–Technical Publishers (WNT), Warsaw, 1981. (with K. Zorychta).

Books (textbooks)

[5] *Decision Support* (in Polish), WUT/Kopipol, Warsaw, 2006.

[6] *Mathematical Programming with the MPSX Package* (in Polish). Warsaw University Press, Warsaw, 1989.

[7] *Linear Programming Packages* (in Polish). Polish Academy of Sciences, Warsaw, 1989.

Chapters in Books

[8] The CREDO Project. In *Digital Preservation: Putting It to Work. Studies in Computational Intelligence, vol. 700*, T.Traczyk et al. (Eds.), Springer, 2017, pp. 65–76. (with T.Traczyk).

[9] Portfolio optimization and transaction costs. In *Quantitative Financial Risk Management: Theory and Practice*, Zopounidis, C., Galariotis, E. (Eds.), Wiley, Oxford, 2015, pp. 212–241. (with R.Mansini and M.G.Speranza).

[10] On solving optimization problems with ordered average criteria and constraints. In *Fuzzy Optimization*, W.A. Lodwick, J. Kacprzyk (Eds.), Studies in Fuzziness and Soft Computing 254, Springer, 2010, pp. 209–230. (with T.Śliwiński).

[11] Future Challenges, In *Multiobjective Optimization: Interactive and Evolutionary Approaches*, J.Branke, K.Deb, K. Miettinen, R.Słowiński (Eds.), Lecture Notes in Computer Science 5252, Springer, 2008, pp. 435–461. (with K.Miettinen, K.Deb, J.Jahn, K.Shimoyama & R.Vetschera).

[12] Equitable Approaches to Location Problems. In *Spatial Multicriteria Decision Making and Analysis: A Geographic Information Sciences Approach*, J.–C.Thill (Ed.), pp. 103–126. Ashgate, Brookfield, 1999. (with M.M.Kostreva).

[13] A Generalized Reference Point Approach to Multiobjective Transshipment Problem with Facility Location. In *Aspiration Based Decision Support Systems — Theory, Software and Applications*, A.Lewandowski and A.P.Wierzbicki (Eds.), Lecture Notes in Economics and Mathematical Systems 331, pp. 213–229. Springer, 1989. (with K.Studziński & K.Zorychta).

[14] Solving Multiobjective Distribution-Location Problems with the DINAS System. Ibid, pp. 230–250. (with K.Studziński & K.Zorychta).

[15] DINAS – Dynamic Interactive Network Analysis System. Ibid, pp. 385–387. (with K.Studziński & K.Zorychta).

Edited Volumes

[16] *Advances in Continuous Optimization on the Occasion of EUROPT 2016*, Special Issue of *Mathematical Methods of Operations Research*, **86**, 2017. (with A.Stachurski).

[17] *Fair Optimization and Networks: Models, Algorithms, and Applications*, Special Issue of *Journal of Applied Mathematics*, **2014**, 2014. (with H.Luss, D.Nace, M.Pióro).

[18] *Methodological Foundations of Multi-Criteria Decision Making*, Feature Issue of *European Journal of Operational Research*, **158**, No. 2, 2004. (with R.Vetschera).

[19] *Portfolio Optimization*, Special Issue of *Control and Cybernetics*, **28**, No. 4, 1999. (with G.Kersten).

Peer–reviewed Journal Publications

[20] Bridging k-sum and CVaR optimization in MILP, *Computers and Operations Research*, **105**, pp. 156–166, 2019. (with C.Filippi and M.G.Speranza).

[21] A revised Variable Neighborhood Search for the Discrete Ordered Median Problem, *European Journal of Operational Research*, **274**, pp. 445-465, 2019. (with P.Olender).

[22] Efficient optimization of the reward-risk ratio with polyhedral risk measures, *Mathematical Methods of Operations Research*, **86**, pp. 625–653, 2017. (with M. Przyłuski and T.Śliwiński).

[23] Lexicographic extension of the reference point method applied in radiation therapy treatment planning, *European Journal of Operational Research*, **263**, pp. 247–257, 2017. (with R. van Haveren, S. Breedveld, M. Keijzer, P. Voet, B. Heijmen).

[24] Fast and fuzzy multi-objective radiotherapy treatment plan generation for head and neck cancer patients with the lexicographic reference point method (LRPM), *Physics in Medicine & Biology*, **62**, pp. 4318–4332, 2017. (with R. van Haveren, G.M. Verduijn, M. Keijzer, B.J.M. Heijmen, S. Breedveld).

[25] Linear Programming Models based on Omega Ratio for the Enhanced Index Tracking Problem, *European Journal of Operational Research*, **251**, pp. 938–956, 2016. (with G. Guastaroba, R.Mansini and M.G.Speranza).

[26] Ordered Median Problem with Demand Distribution Weights, *Optimization Letters*, **10**, pp. 1071–1086, 2016. (with P.Olender).

[27] Network Dimensioning with Maximum Revenue Efficiency for the Fairness Index, *Journal of Telecommunications and Information Technology*, **4/2016**, pp. 15–21, 2016. (with G.Zalewski)

[28] Comparison of Selected Fair-optimization Methods for Flow Maximization between Given Pairs of Nodes in Telecommunications Network, *Journal of Telecommunications and Information Technology*, **3/2016**, pp. 18–24, 2016. (with G.Zalewski)

[29] Fair Optimization and Networks: A Survey, *Journal of Applied Mathematics*, **2014**, Article ID 612018, 25 pages, 2014. (with H.Luss, M.Pióro, D.Nace, and A.Tomaszewski).

[30] Twenty Years of Linear Programming Based Portfolio Optimization, *European Journal of Operational Research*, **234**, pp. 518–535, 2014. (with R.Mansini and M.G.Speranza).

[31] Tail Mean and Related Robust Solution Concepts, *International Journal of Systems Science*, **45**, pp. 29–38, 2014.

[32] A Compromise Programming Approach to Multiobjective Markov Decision Processes, *International Journal of Information Technology & Decision Making*, **12**, pp. 1021-1053, 2013. (with P.Perny and P.Weng).

[33] On MILP Models for the OWA Optimization, *Journal of Telecommunications and Information Technology*, **2/2012**, pp. 5–12, 2012. (with P.Olender).

[34] On solving the dual for portfolio selection by optimizing Conditional Value at Risk, *Computational Optimization and Applications*, **50**, pp. 591–595, 2011. (with T.Śliwiński).

[35] Reference Point Method with Importance Weighted Ordered Partial Achievements, *TOP*, **19**, pp. 380–401, 2011. (with B.Kozłowski)

[36] On dual approaches to efficient optimization of LP computable risk measures for portfolio selection, *Asia-Pacific Journal of Operational Research*, **28**, pp. 41–63, 2011. (with T.Śliwiński).

[37] Conditional median as a robust solution concept for uncapacitated location problems. *TOP*, **18**, pp. 271–285, 2010.

[38] Ordered weighted enhancement of preference modeling in the reference point method for multiple criteria optimization. *Soft Computing*, **14**, pp. 345–360, 2010.

[39] On Efficient WOWA Optimization for Decision Support under Risk. *International Journal of Approximate Reasoning*, **50**, pp. 915–928, 2009. (with T.Śliwiński).

[40] Inequality Measures and Equitable Locations. *Annals of Operations Research*, **167**, pp. 61–86, 2009.

[41] Path Diversity Protection in Two-Layer Networks. *Journal of Telecommunications and Information Technology*, **3/2009**, pp. 14–19, 2009. (with M.Dzida, T.Śliwiński, M.Zagozdzon, M.Pióro).

[42] Decision Support under Risk by Optimization of Scenario Importance Weighted OWA Aggregations. *Journal of Telecommunications and Information Technology*, **3/2009**, pp. 5–13, 2009. (with T.Śliwiński).

[43] Reference Point Method with Importance Weighted Partial Achievements. *Journal of Telecommunications and Information Technology*, **4/2008**, pp. 17–25, 2008.

[44] Reference distribution based decision support platform. *Journal of Telecommunications and Information Technology*, **3/2008**, pp. 5–14, 2008. (with K.Bareja).

[45] A Multi-Criteria Approach to Fair and Efficient Bandwidth Allocation. *OMEGA*, **36**, pp. 451–463, 2008. (with A.Wierzbicki and M.Milewski)

[46] Multicriteria Models for Fair Resource Allocation. *Control and Cybernetics*, **36**, pp. 303–332, 2007.

[47] Conditional Value at Risk and Related Linear Programming Models for Portfolio Optimization. *Annals of Operations Research*, **152**, pp. 227–256, 2007. (with R.Mansini and M.G.Speranza).

[48] Fair and efficient network dimensioning with the reference point methodology. *Journal of Telecommunications and Information Technology*, **4/2006**, pp. 21–30, 2006. (with A.Wierzbicki and M.Milewski).

[49] On Extending the LP Computable Risk Measures to Account Downside Risk. *Computational Optimization and Applications*, pp. 133–160, **32**, 2005. (with A.Krzemienowski).

[50] Telecommunications Network Design and Max-Min Optimization Problem. *Journal of Telecommunications and Information Technology*, **3/2005**, pp. 43–56, 2005. (with M. Pioro and A. Tomaszewski).

[51] On Multi-Criteria Approaches to Bandwidth Allocation, *Control and Cybernetics*, **33**, pp. 427–448, 2004. (with A.Wierzbicki).

[52] Equitable Aggregations and Multiple Criteria Analysis, *European Journal of Operational Research*, **158**, pp. 362–367, 2004. (with M.M.Kostreva and A.Wierzbicki).

[53] LP Solvable Models for Portfolio Optimization: A Classification and Computational Comparison, *IMA Journal of Management Mathematics*, **14**, pp. 187–220, 2003. (with R.Mansini and M.G.Speranza).

[54] On Multiple Criteria Decision Support for Suppliers on the Competitive Electric Power Market. *Annals of Operations Research*, **121**, pp. 79–104, 2003. (with M.Kaleta, E.Toczyłowski and I.Żółtowska).

[55] Fair resource allocation schemes and network dimensioning problems, *Journal of Telecommunications and Information Technology*, 3/2003, 34–42. (with T. Śliwiński and A.Wierzbicki).

[56] On LP Solvable Models for Portfolio Selection. *Informatica*, **14**, pp. 37–62, 2003. (with R.Mansini and M.G.Speranza).

[57] On Solving Linear Programs with the Ordered Weighted Averaging Objective. *European Journal of Operational Research*, **148**, pp. 80–91, 2003. (with T. Śliwiński).

[58] Minimizing the Sum of the k Largest Functions in Linear Time. *Information Processing Letters*, **85**, pp. 117–122, 2003. (with A. Tamir).

[59] Multiple Criteria Optimization and Decisions under Risk. *Control and Cybernetics*, **31**, pp. 975–1003, 2002.

[60] Dual Stochastic Dominance and Quantile Risk Measures. *International Transactions in Operational Research*, **9**, pp. 661–680, 2002. (with A. Ruszczyński).

[61] Conditional Median: A Parametric Solution Concept for Location Problems. *Annals of Operations Research*, **110**, pp. 167–181, 2002. (with M. Zawadzki).

[62] Conditional Value-at-Risk as the Risk Measure in Portfolio Optimization: I. Linear Programming Model. *Rynek Terminowy*, **18**, pp. 117–122, 2002. (with A.Krzemienowski).

[63] Location Problems with the Minimization of the Conditional Mean Distance (in Polish). *Zeszyty Naukowe Politechniki Ślaskiej: Automatyka*, **136**, pp. 167–177, 2002. (with M. Zawadzki).

[64] On Equitable Approaches to Resource Allocation Problems: The Conditional Minimax Solution. *Journal of Telecommunications and Information Technology*, 3/2002, pp. 40–48. (with T. Śliwiński).

[65] Dual Stochastic Dominance and Related Mean–Risk Models. *SIAM Journal on Optimization*, **13**, pp. 60–78, 2002. (with A. Ruszczyński).

[66] On Goal Programming Formulations of the Reference Point Method. *Journal of the Operational Research Society*, **52**, pp. 691–698, 2001.

[67] Viewpoint: Goal programming, compromise programming and reference point method formulations: linkages and utility interpretations. *Journal of the Operational Research Society*, **52**, pp. 960–964, 2001.

[68] Extending the MAD Portfolio Optimization Model to Incorporate Downside Risk Aversion. *Naval Research Logistics*, **48**, pp. 185–200, 2001. (with W. Michalowski).

[69] Comments on Properties of the Minimax Solutions in Goal Programming. *European Journal of Operational Research*, **132**, pp. 17–21, 2001.

[70] On Consistency of Stochastic Dominance and Mean–Semideviation Models. *Mathematical Programming*, **89**, pp. 217–232, 2001. (with A. Ruszczyński).

[71] Multiple Criteria Linear Programming Model for Portfolio Selection. *Annals of Operations Research*, **97**, pp. 143–162, 2000.

[72] Inequality Measures and Equitable Approaches to Location Problems. *European Journal of Operational Research*, **122**, pp. 374–391, 2000.

[73] On the Multicriteria Approach to Location Problems (in Polish). *Zeszyty Naukowe Politechniki Śląskiej: Automatyka*, **131**, pp. 111–120, 2000.

[74] On the Distribution Approach to Location Problems. *Computers & Industrial Engineering*, **37**, pp. 595–612, 1999.

[75] A Recursive Procedure for Selecting Optimal Portfolio According to the MAD Model. *Control and Cybernetics*, **28**, pp. 725–738, 1999. (with W. Michalowski).

[76] Linear Optimization with Multiple Equitable Criteria. *RAIRO Operations Research*, **33**, pp. 275–297, 1999. (with M.M.Kostreva).

[77] From Stochastic Dominance to Mean–Risk Models: Semideviations as Risk Measures. *European Journal of Operational Research*, **116**, pp. 33–50, 1999. (with A. Ruszczyński).

[78] Relocation Problems Arising in Conservation Biology. *Computers & Mathematics with Applications*, **37**, pp. 135–150, 1999. (with M.M.Kostreva & D.W.Tonkyn).

[79] Location Problems from the Multiple Criteria Perspective: Efficient Solutions. *Archives of Control Sciences*, **7 (XLIII)**, pp. 161–180, 1998.

[80] A Spreadsheet Implementation of Aspiration/Reservation Based Decision Support. *Central European Journal for Operations Research and Economics*, **5**, pp. 111–129, 1997. (with J.Korycki).

[81] On Cent–Dians of General Networks. *Location Science*, **5**, pp. 15–28, 1997.

[82] On the Lexicographic Minimax Approach to Location Problems. *European Journal of Operational Research*, **100**, pp. 566–585, 1997.

[83] A Note on Modeling Multiple Choice Requirements for Simple Mixed Integer Programming Solvers. *Computers & Operations Research*, **23**, pp. 199–205, 1996.

[84] Multiple Criteria Location Problem: 2. Preference–based Techniques and Intertactive Decision Support. *Environment & Planning*, **A28**, pp. 69–98, 1996. (with J. Malczewski).

[85] Multiple Criteria Location Problem: 1. A Generalized Network Model and the Set of Efficient Solutions. *Environment & Planning*, **A27**, pp. 1931–1960, 1995. (with J.Malczewski).

[86] Dual Simplex Algorithm with Implicit Representation of Variable Upper Bounds. *Optimization*, **33**, pp. 321–338, 1995.

[87] On Solving Multiobjective Linear Programs with Implicit Representation of Minimax Scalarizing Function. *Archives of Control Sciences*, **3 (XXXIX)**, pp. 193–209, 1994. (with K. Zorychta).

[88] A Goal Programming Model for the Reference Point Method. *Annals of Operations Research*, **51**, pp. 33–44, 1994.

[89] Aspiration/Reservation Decision Support — A Step Beyond Goal Programming. *Journal of Multi–Criteria Decision Analysis*, **1**, pp. 101–117, 1992. (with S.Lahoda).

[90] DINAS — A Computer–Assisted Analysis System for Multiobjective Transshipment Problems with Facility Location. *Computers & Operations Research*, **19**, pp. 637–647, 1992. (with K. Studziński & K. Zorychta).

[91] An Implementation of Variable Upper Bounds via SUB Methodology. *Journal of Information & Optimization Sciences*, **13**, pp. 29–47, 1992.

[92] An Interactive Approach to the Central Facility Location Problem: Locating Pediatric Hospitals in Warsaw. *Geographical Analysis*, **22**, pp. 244–258, 1990. (with J.Malczewski).

[93] A Solver for the Multi–Objective Transshipment Problem with Facility Location. *European Journal of Operational Research*, **43**, pp. 53–64, 1989. (with K. Studziński & K. Zorychta).

[94] Simplex Method is not Always Well–behaved. *Linear Algebra and Its Applications*, **109**, pp. 41–57, 1988.

[95] The Analysis of Liquid Milk Supply to Urban Agglomeration by a Bicriterion Linear Transportation Model with the MPSX/370 Package. *Archives of Control Sciences*, **XXXIII**, pp. 368–376, 1988. (with W. Szymanowski).

[96] Symmetric Duality Theory for Linear Goal Programming. *Optimization*, **19**, pp. 373–396, 1988.

[97] A Multiobjective Approach to Reorganization of Health Service Areas: A Case Study. *Environment & Planning*, **A20**, pp. 1461–1470, 1988. (with J.Malczewski).

[98] A Counterexample to Transformations in Multiphase and Sequential Linear Goal Programming. *Control and Cybernetics*, **17**, pp. 79–84, 1988.

[99] Vehicle Routes Optimization with IBM–PC Microcomputers (in Polish). *Przeglad Statystyczny*, **35**, pp. 81–98, 1988. (with B. Ogryczak).

[100] On Practical Stopping Rules for the Simplex Method. *Mathematical Programming Study*, **31**, pp. 167–174, 1987.

[101] Health Care Districts Planning by Multiobjective Analysis with the MPSX/370 Package. *Archives of Control Sciences*, **XXXII**, pp. 369–381, 1987. (with J. Malczewski).

[102] General Concept of the Dynamic Interactive Network Analysis System (DINAS). *Archives of Control Sciences*, **XXXII**, pp. 279–289, 1987. (with K. Studziński & K. Zorychta).

[103] A Symmetric Duality Concept for Linear Goal Programming: Principal Results. *Control and Cybernetics*, **15**, pp. 413–423, 1986.

[104] On Optimization of the Foodstuff Distribution in Urban Agglomerations (in Polish). *Handel Wewnetrzny*, **6**, pp. 38–46, 1984. (with A. Całczyński & W. Szymanowski).

Peer–reviewed Publications in Proceedings Published as Commercial Books

[105] Large-Scale Periodic Routing Problems for Supporting Planning of Mobile Personnel Tasks. In *Uncertainty and Imprecision in Decision Making and Decision Support: Cross-Fertilization, New Models and Applications, IWIFSGN 2016, Atanassov K. et al. (Eds.), Advances in Intelligent Systems and Computing, vol 559.* pp. 205–216, Springer, 2018. (with T.Śliwiński, J.Hurkała, M.Kaleta, P.Pałka, B.Kozłowski).

[106] Network Dimensioning with Minimum Unfairness Cost for the Efficiency. In *Uncertainty and Imprecision in Decision Making and Decision Support: Cross-Fertilization, New Models and Applications, IWIFSGN 2016, Atanassov K. et al. (Eds.), Advances in Intelligent Systems and Computing, vol 559.* pp. 217–229, Springer, 2018. (with G.Zalewski).

[107] Persistence Management in Digital Document Repository. In *Beyond Databases, Architectures and Structures. Advanced Technologies for Data Mining and Knowledge Discovery. BDAS 2016. Communications in Computer and Information Science, vol. 613.* pp. 668–682, Springer 2016. (with P.Pałka, T.Traczyk and T.Śliwiński).

[108] Determining OWA Operator Weights by Maximum Deviation Minimization. In *PReMI 2015*, Lecture Notes in Computer Science Volume 9124, pp. 335–344, Springer, 2015. (with J.Hurkala).

[109] On WOWA rank reversal. In *MDAI 2012*, Lecture Notes in Artificial Intelligence 7647, pp. 66–77, Springer 2012. (with P.Perny and P.Weng)

[110] Robust decisions under risk for imprecise probabilities. In *Managing Safety of Heterogeneous Systems*, Y.Ermoliev, M.Makowski, K.Marti (Eds.), Lecture Notes in Economics and Mathematical Systems 658, pp. 51–66, Springer 2012.

[111] Determining OWA Operator Weights by Mean Absolute Deviation Minimization. In ICAISC 2012, Lecture Notes in Computer Science 7267, pp. 283-291, Springer 2012. (with M.Majdan).

[112] On minimizing ordered weighted regrets in multiobjective Markov decision processes. In *ADT 2011*, Lecture Notes in Artificial Intelligence 6992, pp. 190–204, Springer 2011. (with P.Perny and P.Weng).

[113] On ordered weighted reference point model for multi-attribute procurement auctions. In *ICCCI 2011*, Lecture Notes in Computer Science 6922, pp. 294–303, Springer 2011. (with B.Kozlowski).

[114] On efficient optimization of the CVaR and related LP computable risk measures for portfolio selection. In *Mathematical and Statistical Methods for Actuarial Sciences and Finance*, M.Corazza, C.Pizzi (Eds.), pp. 245–252, Springer 2010. (with T.Sliwinski).

[119] Path Generation Issues for Survivable Network Design. In *ICCSA 2008*, Lecture Notes in Computer Science 5073, pp. 804–817, Springer, 2007. (with M.Pióro, T.Śliwiński, M.Zagozdzon, M.Dzida).

[120] Reference Point Method with Importance Weighted Ordered Achievements. In *Computational Inteligence in Decision and Control*, D.Ruan et al. (Eds.), pp. 495–500, World Scientific Publishing, 2008. (with B.Kozłowski).

[121] Reference Point Method with Lexicographic Min-Ordering of Individual Achievements. In *Multiple Criteria Decision Making '07*, T.Trzaskalik (Ed.), pp. 155–174, Publisher of the Karol Adamiecki University of Economics in Katowice, 2008.

[122] On decision Support Under Risk by the WOWA Optimization. In *ECSQARU 2007*, Lecture Notes in Artificial Intelligence 4724, pp. 779–790, Springer, 2007. (with T.Śliwiński).

[123] On Optimization of the Importance Weighted OWA Aggregation of Multiple Criteria. In *ICCSA 2007*, Lecture Notes in Computer Science 4705, pp. 804–817, Springer, 2007. (with T.Śliwiński).

[124] On Fuzzy Driven Support for SD-Efficient Portfolio Selection. In *ICANNGA 2007*, Lecture Notes in Computer Science 4431, pp. 578–587, Springer, 2007. (with A.Romaszkiewicz).

[125] Equity, Fairness and Multicriteria Optimization. In *Multiple Criteria Decision Making '05*, T.Trzaskalik (Ed.), pp. 185–199, The Karol Adamiecki University of Economics in Katowice, 2006.

[126] On Direct Methods for Lexicographic Min-Max Optimization. In *ICCSA 2006*, Lecture Notes In Computer Science 3982, pp. 802–811, Springer, 2006. (with T.Śliwiński).

[127] SSD Consistent criteria and coherent risk measures, in: *System Modeling and Optimization, Proceedings of the 22nd IFIP TC7 Conference*, pp. 226–237. Springer 2006. (with M.Opolska-Rutkowska).

[128] Risk Measurement: Mean Absolute Deviation versus Gini's Mean Difference. In *Decision Theory and Optimization in Theory and Practice*, G. Wanka (Ed.), pp. 33–51, Shaker Verlag, Aachen, 2000.

[129] Stochastic Dominance Relation and Linear Risk Measures. In *Financial Modelling — Proceedings of the 23rd Meeting of the EURO Working Group on Financial Modelling*, A.M.J. Skulimowski (Ed.), pp. 191–212. Progress & Business Publishers, Kraków, 1999.

[130] Reference Distribution — An Interactive Approach to Multiple Homogeneous and Anonymous Criteria. In *Multiple Criteria Decision Making — Proceedings of the XIIth International Conference*, G. Fandel and T. Gal (Eds.), Lecture Notes in Economics and Mathematical Systems 448, pp. 156–165. Springer Verlag, Berlin, 1997.

[131] Preemptive Reference Point Method. In *Multicriteria Analysis — Proceedings of the XIth International Conference on MCDM*, J. Climaco (Ed.), pp. 156–167. Springer Verlag, Berlin, 1997.

[132] DINAS Dynamic Interactive Network Analysis System: A Tutorial Example. In *User–Oriented Methodology and Techniques of Decision Analysis and Support — Proceedings of the IIASA International Workshop*, J. Wessels and A.P. Wierzbicki (Eds.), Lecture Notes in Economics and Mathematical Systems 397, pp. 209–222. Springer Verlag, New York, 1993. (with K. Studziński & K. Zorychta).

[133] EDINET — A Network Editor for Transshipment Problems with Facility Location. In *Computer Science & Operations Research: New Developments in Their Interfaces*, O.Balci, R. Sharda and S.A.Zenios (Eds.), pp. 197–212. Pergamon Press, Oxford, 1992. (with K. Studziński & K. Zorychta).

[134] On Solving Multiobjective Linear Programs via Minimax Scalarizing Function. In *Multiple Criteria Decision Making — Proceedings of the IXth International Conference: Theory and Applications in Business, Industry and Government*, A. Goicoechea, L. Duckstein and S. Zionts (Eds.), pp. 311–325. Springer Verlag, Berlin, 1992. (with K. Zorychta & J.M. Chaudri).

[135] DINAS — Computer–Assisted System for Multi–Criteria Transportation and Location Analyses. In *Advances in Computing and Information — Proceedings of the International Conference on Computing and Information ICCI'90*, S.G. Akl, F. Fiala and W.W. Koczkodaj (Eds.), Lecture Notes in Computer Science 468, pp. 216–224. Springer Verlag, New York, 1991.(with K. Studziński & K. Zorychta).

[136] The Analysis of Liquid Milk Supply to Urban Agglomeration by Bicriterion Linear Transportation Model with the MPSX/370 Package. In *Improving Decision Making in Organizations — Proceedings of the VIIIth International Conference on Multiple Criteria Decision*

Making, A.G. Lockett and G. Islei (Eds.), Lecture Notes in Economics and Mathematical Systems 335, pp. 203–211. Springer Verlag, New York, 1989. (with W. Szymanowski).

[137] On Health Care Districts Planning by Multiobjective Analysis with the MPSX/370 Package. In *Improving Decision Making in Organizations — Proceedings of the VIIIth International Conference on Multiple Criteria Decision Making*, A.G. Lockett and G. Islei (Eds.), Lecture Notes in Economics and Mathematical Systems 335, pp. 314–324. Springer Verlag, New York, 1989. (with J. Malczewski).

[138] Dynamic Interactive Network Analysis System. In *Improving Decision Making in Organizations — Proceedings of the VIIIth International Conference on Multiple Criteria Decision Making*, A.G. Lockett and G. Islei (Eds.), Lecture Notes in Economics and Mathematical Systems 335, pp. 444–453. Springer Verlag, New York, 1989. (with K. Studziński & K. Zorychta).

[139] Methodological Background of the Dynamic Interactive Network Analysis System (DINAS). In *Methodology and Software for Interactive Decision Support — Proceedings of the International IIASA Workshop*, A. Lewandowski and I. Stanchev (Eds.), Lecture Notes in Economics and Mathematical Systems 337, pp. 195–201. Springer Verlag, New York, 1989. (with K. Studziński & K. Zorychta).

Peer–reviewed Publications in Proceedings

[140] Portfolio Optimization with Reward-Risk Ratio Measure based on the Conditional Value-at-Risk, in: *Lecture Notes in Engineering and Computer Science: Proceedings of The World Congress on Engineering and Computer Science 2015, WCECS 2015, 21-23 October, 2015, San Francisco, USA*, pp. 913–918. (with M.Przyluski and T.Sliwinski).

[141] Fair Optimization - Methodological Foundations of Fairness in Network Resource Allocation, in: *38th Annual International Computers, Software and Applications Conference Workshops (COMPSACW)*, IEEE Computer Society 2014, pp. 43-48.

[142] Sequential algorithms for exact and approximate max-min fair bandwidth allocation, in: *XVth International Telecommunications Network Strategy and Planning Symposium (NETWORKS)*, IEEE 2012, pp. 1–6. (with T.Sliwinski).

[143] Efficient portfolio optimization with conditional value at risk, in: *Proceedings of the International Multiconference on Computer Science and Information Technology, IMCSIT 2010*, art. no. 5679952, IEEE 2010, pp. 901–908. (with T.Sliwinski).

[144] On Principles of Fair Resource Allocation for Importance Weighted Agents. In *Proceedings International Workshop on Social Informatics SOCINFO 2009*, IEEE, 2009, pp. 57–62.

[145] Multicriteria Equitable Optimization and Robust Solution Concepts. In *WCSMO-8 Eight World Congress on Structural and Multidisciplinary Optimization*. 2009. CD pp. 1–10.

[146] Fair and Efficient Resource Allocation Bicriteria Models for Equitable Optimization. In *ICINCO 2008 Fifth International Conference on Informatics in Control, Automation and Robotics*, J.Filipe, J.Andrade-Cetto, J.-L.Ferrier (Eds.), INSTICC Press, 2008, pp. 149–156.

[147] Path Generation for a Class of Survivable Network Design Problems. In *4th EURO-NGI Conference on Next Generation Internet Networks*, IEEE, 2008, pp. 31–38. (with M.Dzida, M.Zagozdzon, M.Pióro, T.Śliwiński).

[148] WOWA Enhancement of the Reference Point Method. In *Proceedings of the 12th International Conference on Information Processing and Management of Uncertainty in Knowledge-Based Systems (IPMU'08)*, L.Magdalena, M.Ojeda-Aciego, J.L.Verdegay (Eds.), University of Malaga, 2008, pp. 274–281.

[149] Tail Gini's Risk Measures Related Linear Programming Models for Portfolio Optimization. In *HERCMA Conference Proceedings*, LEA Publishers, Athens 2007, CD pp. 1-8. (with R.Mansini and M.G.Speranza).

[150] Fair and Efficient Bandwith Allocation with the Reference Point Methodology. In *INOC 2007 International Network Optimization Conference Proceedings*. 2007, CD pp. 1–6. (with M.Milewski and A.Wierzbicki).

[151] Lexicographic Max-Min Optimization for Efficient and Fair Bandwith Allocation. In *INOC 2007 International Network Optimization Conference Proceedings*. 2007. CD pp. 1–6. (with T.Śliwiński).

[152] On Primal-Dual Third Degree Stochastic Dominance. In *23rd IFIP TC7 Conference System Modelling and Optimization*, A.Korytowski, W.Mitkowski, M.Szymkat (Eds.), AGH 2007, pp. 51–52. (with M.Opolska-Rutkowska).

[153] Multicriteria Decision Support for Problems with Numerous and Structured Criteria. In *23rd IFIP TC7 Conference System Modelling and Optimization*, A.Korytowski, W.Mitkowski, M.Szymkat (Eds.), AGH 2007, pp. 305–306. (with B.Kozlowski).

[154] Bicriteria Models for Fair Resource Allocation. In *Proceedings of the 1st International Workshop on Computational Social Choice (COMSOC-2006)*, U.Endriss, J.Lang (Eds.), University of Amsterdam, 2006, pp. 380–393.

[155] On Fair and Efficient Bandwith Allocation by the Multiple Target Approach. In *2006 Next Generation Internet Design and Engineering*, IEEE, 2006, pp. 48–55. (with M.Milewski and A.Wierzbicki).

[156] Applications of Max-Min Fairness Principle in Telecommunication Network Design. In *2005 Next Generation Internet Networks*, IEEE, 2005, pp. 219–225. (with M.Pióro, M.Dzida, A.Tomaszewski, M.Zagozdzon, E.Kubilinskas, P.Nilsson).

[157] A Multi-Criteria Approach to Fair and Efficient Bandwidth Allocation. In *The Fifth International Conference on Decision Support for Telecommunications and Information Society*, National Institute of Telecommunications, 2005, pp. 73–92. (with A.Wierzbicki and M.Milewski).

[158] On generalized OWA approach to support location and routing decisions. In *Advanced OR and AI Methods in Transportation, Proceedings of 10th EWGT Meeting and 16th Mini-EURO Conference*, A.Jaszkiewicz, M.Kaczmarek, J.Zak, M.Kubiak (Eds.), Poznan, Poland, 2005, pp. 746–751. (with K.Fleszar).

[159] Telecommunications Network Design and Max-Min Optimization Problem. In *The Fourth International Conference on Decision Support for Telecommunications and Information Society*, National Institute of Telecommunications, 2004, pp. 99–124. (with M.Pióro and A.Tomaszewski).

[160] Multi-Criteria Approach to Portfolio Optimization (in Polish). In *Preference Modeling and Risk '01*, T.Trzaskalik (Ed.), Katowice, Poland, 2001, pp. 327–338. (with A.Romaszkiewicz).

[161] On Equitable Approaches to Resource Allocation Problems: the Conditional Minimax Solutions. In *The First International Conference on Decision Support for Tecommunications and Information Society*, National Institute of Telecommunications, 2001, pp. 51-67. (with T.Śliwiński).

[162] Portfolio Optimization by the MAD Model: Analysis on Performances on the Warsaw Stock Exchange (in Polish). In *Preference Modeling and Risk '99, Vol. 1*, T.Trzaskalik (Ed.), Katowice, Poland, 1999, pp. 291–305. (with A. Romaszkiewicz).

[163] Approaches to Network Congestion Management at Electricity Markets (in Polish). In *Competitive Electricity Market*, Lublin, Poland, 1999. pp. 135–142. (with K.Zadora-Przyłecki, T.Sikorski & E.Toczyłowski).

[164] Equity and Risk Factors in Aspiration–Based Approaches. In *Proceedings of the International Workshop on Social Security Reform*, R.Kulikowski, G.J.MacDonald (Eds.), Warsaw, Poland, 1998. pp. 61–62.

[165] Multiple Criteria Linear Programming Model for Portfolio Selection. In *International Conference on Transition to Advanced Market Institutions and Economies*, R.Kulikowski, Z.Nahorski, J.W.Owsiński (Eds.). Warsaw, Poland, 1997. pp. 302–305.

[166] A Goal Programming Model of the Reference Point Method. In *Preprints of the IFAC/IFORS/IIASA/TIMS Workshop on Support Systems for Decision and Negotiation Processes*. Warsaw, Poland, 1992. pp. 433–440.

[167] A Unified Implementation of Various Multiple Objective LP Techniques. In *Proceedings of the 27th Annual Meeting Southeastern Chapter of The Institute of Management Sciences*. Myrtle Beach, South Carolina, USA, 1991. pp. 342–344. (with S. Lahoda).

[168] Aspiration/Reservation Decision Support – A Step Beyond Goal Programming. In *Proceedings of the Third Annual Meeting the International Academy of Management and Marketing*. Detroit, Michigan, USA, 1991. pp. 655–663.

[169] Interactive Multiple Criteria Linear and Discrete Optimization as a Kernel of Decision Support Systems. In *Proceedings of the 1991 Annual Meeting SE Decision Sciences Institute*. Arlington, Virginia, USA, 1991. pp. 101–103.

[170] DINAS – Computer–Assisted System for Multi–Criteria Transportation and Location Analyses. In *Proceedings of the International Conference on Computing and Information ICCI'90*. Niagara Falls, Canada, 1990. pp. 221–224. (with K. Studziński & K. Zorychta).

[171] An Interactive Decision Support System for Multicriteria Transportation–Location Problems (in Polish). In *Proceedings of the Conference on Computer Systems and Methods for Decision Support*. Warsaw, Poland, 1988. pp. 244–253. (with K. Studziński & K. Zorychta).

[172] On Vehicle Routes Planning with IBM–PC Microcomputers (in Polish). In *Proceedings of the Conference on Computer Systems and Methods for Decision Support*. Warsaw, Poland, 1988. pp. 346–355. (with B. Ogryczak).

[173] An Interactive Approach to Multiobjective Transshipment Problems with Facility Location. In *Internationale Tagung: Mathematische Optimierung — Theorie und Anwendungen*, Eisenach, Germany, 1987. pp. 106–109.

[174] Models for the Foodstuff Distribution Organization Channels for Large Urban Agglomerations. In *Preprints of 5th IFAC/IFIP/IFORS International Conference on Control in Transportation Systems*. Vienna, Austria, 1986. pp. 73–82. (with W. Szymanowski).
